Mathematics

Quarter 1 – Module 6:
Identifying Ordinal Numbers

Introductory Message

This Self-Learning Module (SLM) is prepared so that you, our dear learners, can continue your studies and learn while at home. Activities, questions, directions, exercises, and discussions are carefully stated for you to understand each lesson.

Each SLM is composed of different parts. Each part shall guide you step-by-step as you discover and understand the lesson prepared for you.

Pre-tests are provided to measure your prior knowledge on lessons in each SLM. This will tell you if you need to proceed on completing this module or if you need to ask your facilitator or your teacher's assistance for better understanding of the lesson. At the end of each module, you need to answer the post-test to self-check your learning. Answer keys are provided for each activity and test. We trust that you will be honest in using these.

In addition to the material in the main text, Notes to the Teacher are also provided to our facilitators and parents for strategies and reminders on how they can best help you on your home-based learning.

Please use this module with care. Do not put unnecessary marks on any part of this SLM. Use a separate sheet of paper in answering the exercises and tests. And read the instructions carefully before performing each task.

If you have any questions in using this SLM or any difficulty in answering the tasks in this module, do not hesitate to consult your teacher or facilitator.

Thank you.

What I Need to Know

This module was designed to help you comprehend Ordinal Numbers focus on the competency “identifies ordinal numbers from 1st to 100th with emphasis on the 21st to 100th objects in a given set from a given point of reference (M3NS-Ic-16.3)”. The scope of this module permits it to be used in many different learning situations. The language used recognizes your diverse vocabulary backgrounds. The lessons are arranged to follow the standard sequence of the course but the order in which you read them can be changed to correspond with the Mathematics Grade 3 learning materials you are using.

After going through this module, you are expected to:

1. Identify the ordinal numbers from 1st to 100th;
2. Read the ordinal numbers from 1st to 100th; and
3. Write the ordinal numbers from 1st to 100th.

Enjoy your journey. Good luck!

What I Know

Multiple Choice. Choose the letter of the correct answer. Write the chosen letter on a separate sheet of paper.

- How are you going to write thirty-third in symbols?
 - 33st
 - 33rd
 - 33th
 - 33nd

- What are the 3 ordinal numbers that comes after 90th?

a. 91 th , 92 nd , 93 rd	c. 91 st , 92 nd , 93 rd
b. 91 st , 92 th , 93 rd	d. 91 th , 92 th , 93 th

- What is 97th if written in words?
 - ninety-seventh
 - ninety-second
 - ninety-sevenths
 - ninety-seven

- What is twenty-fifth if written in symbols?
 - 25rd
 - 25st
 - 25th
 - 25nd

- What is 80th if written in words?
 - eightieth
 - eigthird
 - eighty
 - eightyieth

Lesson

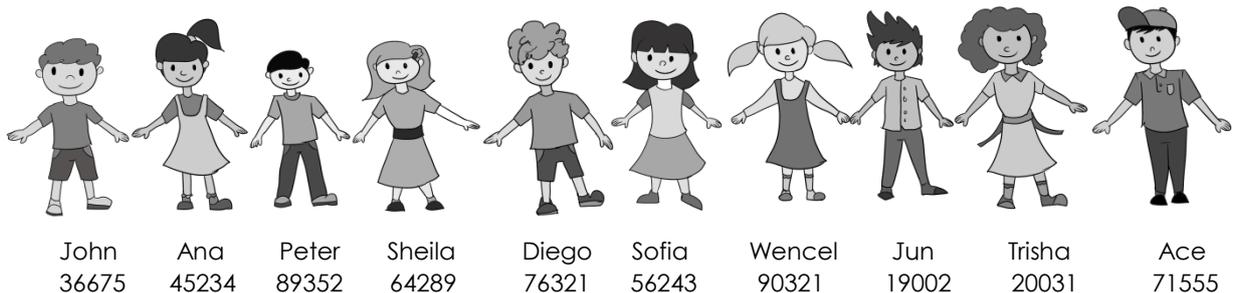

Identifies Ordinal Numbers from 1st to 100th with Emphasis on 21st to 100th Object in a Given Set from a Given Point of Reference

Have you experienced falling in line in school? What should you observe when falling in line?

What's In

A picture of children lined up after another. Read the name and the Identification (ID) card number of each pupil below the picture.

Arrange the children's name according to their ID card number in an increasing order.

Name										
ID No.										

Who is first in the list? _____

The third? _____

The fifth? _____

The seventh? _____

The tenth? _____

What's New

Before we discuss about ordinal numbers in this module, it is important to understand the following terms used in the course of the lesson.

- Numeral - relating to numbers
- Ordinal - relating to an order
- Superscript - letters written immediately at the right of the character. It is set slightly above the normal line of text. It is usually smaller than the text it was attached. In the symbol 1st, the letters **st** are written as superscript.
- Point of reference – the point or object in which the order of counting starts

To introduce to you what these Ordinal Numbers be like, we can easily cite examples like the alphabet where letters are being arranged in a specific order.

Here is a chart of Filipino alphabet from the first to the last letter.

How many letters does the Filipino alphabet have? _____

A	B	C	D	E	F	G
H	I	J	K	L	M	N
Ñ	NG	O	P	Q	R	S
T	U	V	W	X	Y	Z

The alphabet is composed of letters in a fixed order. Notice that the arrangement of letters indicates the position or order of one letter in relation to the other letters.

What is It

Ordinal numbers are numbers that indicate the position or order of an object or number in relation to a point of reference.

When objects are placed in order, we use ordinal numbers to tell their position.

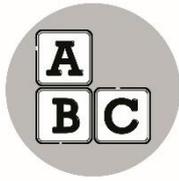

In writing ordinal numbers and its symbol, study the table below:

1 st	First	11 th	Eleventh	21 st	Twenty-first	31 st	Thirty-first	50 th	Fiftieth
2 nd	Second	12 th	Twelfth	22 nd	Twenty-second	32 nd	Thirty-second	60 th	Sixtieth
3 rd	Third	13 th	Thirteenth	23 rd	Twenty-third	33 rd	Thirty-third	70 th	Seventieth
4 th	Fourth	14 th	Fourteenth	24 th	Twenty-fourth	34 th	Thirty-fourth	80 th	Eightieth
5 th	Fifth	15 th	Fifteenth	25 th	Twenty-fifth	35 th	Thirty-fifth	90 th	Ninetieth
6 th	Sixth	16 th	Sixteenth	26 th	Twenty-sixth	36 th	Thirty-sixth	100 th	One hundredth
7 th	Seventh	17 th	Seventeenth	27 th	Twenty-seventh	37 th	Thirty-seventh		
8 th	Eighth	18 th	Eighteenth	28 th	Twenty-eighth	38 th	Thirty-eighth		
9 th	Ninth	19 th	Nineteenth	29 th	Twenty-ninth	39 th	Thirty-ninth		
10 th	tenth	20 th	Twentieth	30 th	Thirtieth	40 th	Fortieth		

Notice that in writing ordinal numbers in symbol we used a number combined with letters (**st**, **nd**, **rd** and **th**) as superscripts.

In writing the symbol of an ordinal number, apply the following rule:

- For numbers ending in **1** **except 11**, connect with the letters **st** as superscripts.
- For numbers ending in **2** **except 12**, connect with the letters **nd** as superscripts.
- For numbers ending in **3** **except 13**, connect with the letters **rd** as superscripts.
- Use **th** as superscripts for numerals ending with 4, 5, 6, 7, 8, 9, 0 and for specific number such as 11, 12 and 13.

What's More

Activity 1

Here are some numbers. Change them into ordinal numbers by writing *th*, *rd*, *nd*, or *st* as superscripts.

1. 31 _____

4. 80 _____

2. 45 _____

5. 68 _____

3. 33 _____

6. 92 _____

Activity 2

Complete the chart below. Write your answer on a separate sheet.

1 st	First	11 th	Eleventh		Twenty-first	31 st		50 th	
2 nd	Second	12 th	Twelfth	22 nd			Thirty-second	60 th	Sixtieth
3 rd	Third	13 th	Thirteenth	23 rd	Twenty-third	33 rd	Thirty-third	70 th	Seventieth
4 th	Fourth	14 th	Fourteenth		Twenty-fourth	34 th	Thirty-fourth	80 th	Eightieth
5 th	Fifth	15 th	Fifteenth	25 th		35 th	Thirty-fifth	90 th	
6 th	Sixth	16 th	Sixteenth	26 th	Twenty-sixth	36 th	Thirty-sixth	100 th	One hundredth
7 th	Seventh	17 th	Seventeenth	27 th	Twenty-seventh	37 th	Thirty-seventh		
8 th	Eighth	18 th	Eighteenth		Twenty-eighth	38 th			
9 th	Ninth	19 th	Nineteenth	29 th		39 th	Thirty-ninth		
	tenth	20 th	Twentieth	30 th	Thirtieth	40 th	Fortieth		

What I Have Learned

1. Ordinal numbers are numbers that indicate the position or order of an object or number in relation to a point of reference.
2. To write ordinal numbers in symbol, use superscript letters:
 - **st** for numerals with the number ending in 1 except 11 (1st, first)
 - **nd** for numerals with the number ending in 2 except 12 (2nd, second)
 - **rd** for numerals with the number ending in 3 except 13 (3rd, third)
 - **th** for numerals with the number ending in 4, 5, 6, 7, 8, 9, 0 and for specific number such as 11, 12 and 13.

What I Can Do

Activity 3

My First 100 Words

the	at	there	some	my
of	be	use	her	than
and	this	an	would	first
a	have	each	make	water
to	from	which	like	been
in	or	she	him	called
is	one	do	into	who
you	had	how	time	am
that	by	their	has	its
it	words	if	look	now
he	but	will	two	find
was	not	up	more	long
for	what	other	write	down
on	all	about	go	day
are	were	out	see	did
as	we	many	number	get
with	when	then	no	come
his	your	them	way	made
they	can	these	could	may
I	said	so	people	part

From the list of 100 words in the previous page, consider the order of reading downward from left to right then write the ordinal numbers of the following words below:

1. there _____
2. people _____
3. this _____
4. long _____
5. many _____

Assessment

Multiple Choice. Choose the letter of the correct answer. Write the chosen letter on a separate sheet of paper.

- How are you going to write twenty-third in symbols?
 - 23st
 - 23rd
 - 23th
 - 23nd
- Identify which ordinal number is written in wrong way?
 - 17th
 - 23rd
 - 54st
 - 92nd
- What is 65th if written in words?
 - sixty-fifth
 - sixty-five
 - sixty-fourth
 - sixty-first
- What is seventy-fifth if written in symbol?
 - 75rd
 - 75st
 - 75th
 - 75nd
- What is 100th if written in words?
 - one hundredth
 - one-hundredth
 - one hundred
 - one-hundrieth

Additional Activities

Activity 4

Fill in the blanks.

Ordinal Number in Symbol	Ordinal Number in Words
Example: 25 th	Twenty-fifth
1. 31 st	
2. 45 th	
3.	Thirty-third
4. 81 st	
5. 68 th	
6.	Ninety-second

Answer Key

<p>Additional Activity</p> <p>Activity 4</p> <p>1. thirty-first 2. forty-fifth 3. 33rd 4. eighty-first 5. sixty-eighth 6. 92nd</p>
--

<p>Assessment</p> <p>1. b 2. c 3. a 4. c 5. a</p>
