What I Need to Know

Bias and prejudice are commonly viewed as being closely related. They are forming opinion before being aware of the facts of a case concerned.

Bias can affect our work of life. They can influence action and decisions such as how we interact with individuals in a given group, what advice we consider and how we perform.

Learning Objective:

- Differentiate bias from prejudice

What I Know

TASK 1 Look at the pictures. What do you notice about the men and women in the photos?

What do they reveal about men and women?

Will women always be depicted as doing household chores and men as warriors?
